 Adriana Luengas

profile

Industrial Designer specialized in interior design and custom furniture development, with experience managing projects from concept and visualization through manufacturing and final installation.

My work combines design, functionality, and material exploration to create solutions with a strong aesthetic and technical balance.

experience

Breuer Estudio

Project Manager · 2023 – 2026

End-to-end management of custom furniture and millwork projects.

- Develop design proposals based on site measurements and client requirements, including 3D modeling, renderings, and presentations.
- Prepare project budgets through detailed breakdowns of materials, labor, and production costs.
- Produce and supervise fabrication drawings, optimizing ergonomics, structural solutions, hardware, and material selection.
- Oversee workshop manufacturing processes and quality control.
- Coordinate suppliers and manage material procurement.
- Supervise on-site installation with carpentry and installation teams.
- Resolve technical issues and provide post-installation follow-up.

Dórica

Project Manager · 2022 – 2023

- Develop concepts for furniture design projects.
- Produce 3D models and high-quality renderings.
- Prepare technical drawings for manufacturing.
- Coordinate with clients, suppliers, and production teams.
- Design graphic materials for digital communication and marketing.
